

## PalmShower, an exceptional outside shower-spray

Today, the border between the outside and the inside is fading to give way to a single space with requirements of high refinement and functionality. The design reflects a true outdoor lifestyle and certain parts are exposed as works of art on a terrace, in a garden, near a pool. PalmShower has been designed to meet these new expectations, offering an original design, a product concept multi-functions and fully customizable.

### An innovative design

Inspired by tropical palm trees, this innovative concept of shower-spray offers an unusual and contemporary design mixing modernity and practicality. This splendid and sculptural shower will perfectly find its place in various outside environments to offer you number of coolness and well-being moments. The PalmShower design has been created to be easy to use every day by every one with the maximum of comfort and the possibility to be adapted to each personal needs.

### PalmShower, a unique product

Borrowed from tropical palm trees, the silhouette includes water jets and allows a customization of the number of leaves dedicated to showers and/or vaporizations. Leds lamps are included in the shower heads to illuminate your night uses.

Plumbing and electricity are included in the central module. The push buttons controlling the whole functions are embedded in the trunk.

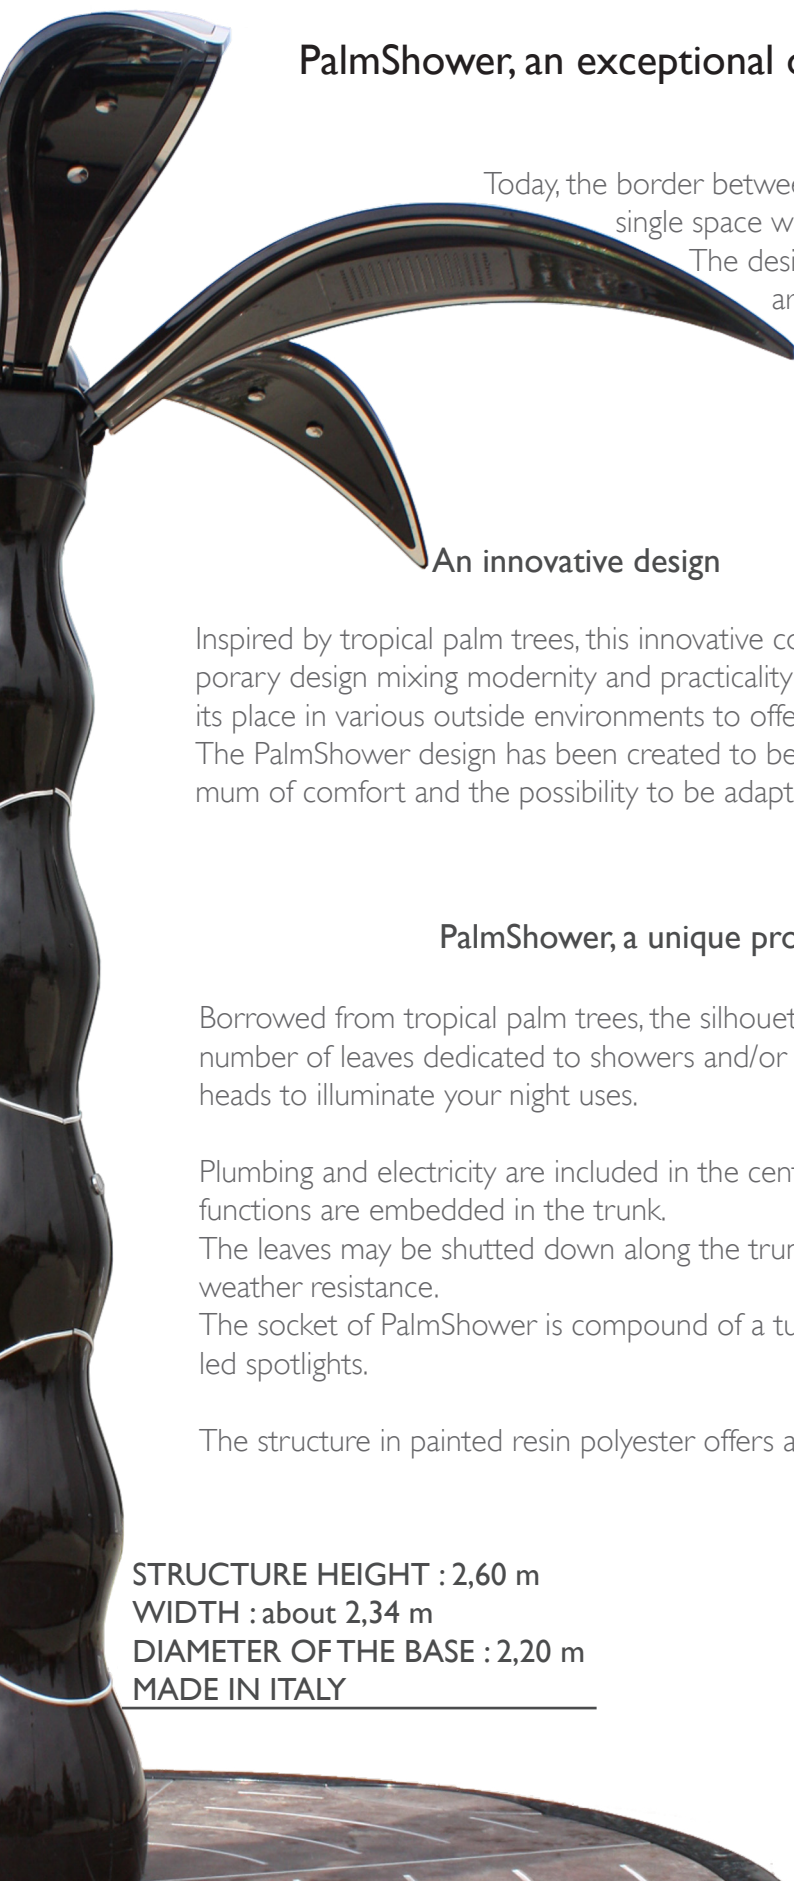

The leaves may be shutted down along the trunk by a motorized system to optimize winds and bad weather resistance.

The socket of PalmShower is compound of a tub to receive water and a non-skid surface including the led spotlights.

The structure in painted resin polyester offers a great choice of colors and ensures a perfect resistance.

**STRUCTURE HEIGHT : 2,60 m**  
**WIDTH : about 2,34 m**  
**DIAMETER OF THE BASE : 2,20 m**  
**MADE IN ITALY**

---

## PalmShower, “à la carte”

PalmShower product is fully customizable and adaptable, manufactured on order to meet the needs of each. Color, duckboard covering, options : sound system, remote control ... the customer may create the product of his choice.

### A customizable product

PalmShower is marketed from a standard model on which functional or esthetic options can be added

#### **Color**

PalmShower is available in a wide range of complexions (repository RAL classic)

#### **Duckboard covering**

The duckboard, in polyester moss covered by two foils of silkscreen, offers various aspects of surface and color. This material was selected for its resistance to water and weather.

#### **Number of leaves dedicated to showers and vaporization**

In accordance to his needs, the user can choose to have the 6 leaves dedicated to shower or vaporization, or 3 leaves for shower and 3 leaves for vaporization.

## A multi-function product

PalmShower offers additional features, optionally :

### High-pressure vaporization

PalmShower is equipped with a vaporization system BRUMAZUR (PalmShower distributor on Middle east). A high-pressure pump and exclusive self-cleaning injectors are integrated into the PalmShower to display a fine spray of refreshing water. The BRUMAZUR atomizers are classified within health and alimentary high standard specifications.

### Sound System

A sound system is integrated into the PalmShower structure to diffuse a quality sound and take advantage of a large acoustical field. A MP3 reader, a radio-tuner, a Wi-Fi and Bluetooth receiver, speakers, stereo amplifiers are included, all waterproof. This option has to be ordered together with the remote control.

### Remote Control

The PalmShower may be remote controlled from an Iphone/Ipod touch through a Wi-Fi integrated in the structure. This application controls all the features of the PalmShower : leaves opening and shutting down, vaporization, chromotherapeutic light and sound system.

### Chromotherapeutic light

LED RVB spot lights embedded in the base spread a continuous variation of seven colors according to a pre-defined cycle. The spots can also be stopped on a specific color chosen by the user. The luminous shower heads can be synchronised with the base projectors.

### Specific colors or covering

Specific colors, such as pearly white, metallic grey, or sieved gold among others, can be studied and performed optionally.

Specific materials for the duckboard covering may also be adapted on request.

## Wordwilde exclusive launch at ME Pool and Spa Dubai, 2010 september

PalmShower has been presented for a wordwilde exclusive launch at Me Pool & Spa Exhibition on the AZUR SYSTEM GENERAL TRADING LLC stand in September 26 to 28, 2010.
